

Evening Tour - Home at Dusk

11 before-and-after comparisons from 10 source photos

The exact v1.1 prompt was used for every result in this gallery. The suburban exterior has two separate outputs; the other inputs have one each.

Example	Scene	Type	Page
01	Coastal dining room	Interior	2
02	Dark kitchen	Interior / public sample	3
03	Mixed-light kitchen	Interior / public sample	4
04	Suburban exterior - first result	Exterior	5
05	Suburban exterior - repeat result	Exterior / same original	6
06	Windowed home office	Interior	7
07	Study without a visible window	Interior	8
08	Living room - angle A	Interior	9
09	Living room - angle B	Interior	10
10	Red-brick daylight exterior	Exterior	11
11	Open-plan kitchen / dining / living	Interior	12

Method: built-in image generation; backend identity was not exposed. These examples do not establish Nano Banana Pro or 4K performance. All saved v1.1 test outputs are shown, including unsuccessful edits.

Files: the accompanying numbered folders retain the before and after images at their actual resolutions. This PDF displays comparison previews. Three interior angles show the same home.

Coastal dining room

BEFORE | 7003 x 4666 px

AFTER | 1536 x 1024 px

Review note: A strong visual concept. Warmth and fine artwork/material detail still need source comparison.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Dark kitchen

BEFORE | 1200 x 800 px

AFTER | 1536 x 1024 px

Review note: Small source image. Skyline detail and possible concealed-light spill remain unverified.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Mixed-light kitchen

BEFORE | 640 x 427 px

AFTER | 1536 x 1024 px

Review note: Unsupported under-cabinet glow was observed. The low-resolution source cannot substantiate newly rendered fine detail.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Suburban exterior - first result

BEFORE | 5995 x 3995 px

AFTER | 1536 x 1024 px

Review note: Promising evening mood; fine landscaping detail and uniform window glow need review. Dark garden forms already exist in the source.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Suburban exterior - repeat result

BEFORE | 5995 x 3995 px

AFTER | 1536 x 1024 px

Review note: Same original and unchanged prompt, another generation. Sky/cloud pattern, amber window uniformity and fine vegetation texture need review.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Windowed home office

BEFORE | 6690 x 4460 px

AFTER | 1536 x 1024 px

Review note: Broad room layout is recognizable. Strong amber warmth and small screen/light details need review.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Study without a visible window

BEFORE | 6960 x 4640 px

AFTER | 1536 x 1024 px

Review note: No window was invented. Warmth, artwork detail and a light point inside the arch remain review items.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Living room - angle A

BEFORE | 6000 x 3995 px

AFTER | 1537 x 1023 px

Review note: Fire was added to an unlit fireplace despite the prompt prohibition. The interior also became strongly amber.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Living room - angle B

BEFORE | 5999 x 3994 px

AFTER | 1537 x 1023 px

Review note: Fire was added; the wall-sign face and lettering disappeared. This is another angle of the same living room.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Red-brick daylight exterior

BEFORE | 7007 x 4671 px

AFTER | 1536 x 1024 px

Review note: The upper window above the garage lost its dense horizontal blind slats. Existing exterior fixtures were retained.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.

Open-plan kitchen / dining / living

BEFORE | 5998 x 3999 px

AFTER | 1536 x 1024 px

Review note: Fire was added in the distant fireplace. The sign survives here but disappears in the other living-room view.

Same input framing shown for comparison. Prompt: Evening Tour v1.1. Generated with the built-in image tool.
